

# Report: 6G AND ITS APPLICATIONS

## TABLE OF CONTENTS

### 1. Executive Summary

- 1.1 Summary of Findings
- 1.2 Recommendations

### 2. Introduction

- 2.1 Overview of 6G Technology
  - 2.1.1 Speed and bandwidth
  - 2.1.2 Latency
  - 2.1.3 Energy efficiency
    - 2.1.3.1 Advanced Radio Access Technologies
    - 2.1.3.2 AI and ML
  - 2.1.4 Artificial intelligence and machine learning
    - 2.1.4.1 ML at the Physical Layer
    - 2.1.4.2 ML at the Medium Access Control Layer
    - 2.1.4.3 ML at the Application Layer
    - 2.1.4.4 Edge intelligence
    - 2.1.4.5 Quantum computing
- 2.2 Benefits of 6G Technology
  - 2.2.1 Throughput
  - 2.2.2 Power
  - 2.2.3 Network Coverage
  - 2.2.4 New applications and use cases

### 3. Company Profile

- 3.1 Qualcomm
  - 3.1.1 AI/ML for air interface
    - 3.1.1.1 Cross-node Machine Learning for Channel State Feedback (CSF)
    - 3.1.1.2 Cross-node Machine Learning for Beam Management
  - 3.1.2 Spectrum Bands
    - 3.1.2.1 Sub-terahertz communication in 100+ GHz
    - 3.1.2.2 Giga-MIMO

- 3.1.3 Cellular air interface innovations
  - 3.1.3.1 3.5 GHz subband full-duplex network
  - 3.1.3.2 Quadrature Amplitude Modulation (QAM)
- 3.2 Huawei
  - 3.2.1 Ultra-Low Power and High-Data Rate Short-Range Wireless Enables Fully Immersive 6G
  - 3.2.2 Collaboration With Research and Educational Communities
  - 3.2.3 6G multi-lateral trust model (blockchain for wireless networks)
- 3.3 Ericsson
  - 3.3.1 Hexa-X Project
  - 3.3.2 Investing In The Development Of New Technologies
  - 3.3.3 Establishing A 6G Research Hub In Sweden
  - 3.3.4 Exploring New Spectrum Bands
    - 3.3.4.1 The centimetric range 7-20 GHz
    - 3.3.4.2 Sub-THz range (92-300 GHz)
- 3.4 Nokia
  - 3.4.1 Hexa-X-II
  - 3.4.2 Nokia Bell Labs Research Project
  - 3.4.3 Collaboration with Telco operators
  - 3.4.4 Involvement In The Next G Alliance
- 3.5 Samsung
  - 3.5.1 New Research Group
    - 3.5.1.1 Samsung R&D Institute UK
  - 3.5.2 Member Of Standardization Bodies
    - 3.5.2.1 Telecommunication Union (ITU)
  - 3.5.3 6G Services (sensing, imaging, displaying, and AI)
- 3.6 Keysight Technologies
  - 3.6.1 Collaboration With Research Group
    - 3.6.1.1 Analog Devices (ADI)
    - 3.6.1.2 NOKIA Bell Labs
  - 3.6.2 Collaboration With Telco Operator
    - 3.6.2.1 NTT DOCOMO
  - 3.6.3 Member Of Standardization Bodies
    - 3.6.3.1 Institute of Electrical and Electronics Engineers (IEEE)

- 3.6.3.2 3rd Generation Partnership Project (3GPP)
- 3.6.4 Terahertz spectrum
- 3.7 Intel
  - 3.7.1 Collaboration With Research and Educational Communities
    - 3.7.1.1 Hexa-X
    - 3.7.1.2 IEEE
    - 3.7.1.3 3rd Generation Partnership Project (3GPP)
- 3.8 Cohere Technologies
  - 3.8.1 Universal Spectrum Multiplier (USM)
  - 3.8.2 Next G alliance
- 3.9 NEC Corporation
  - 3.9.1 Collaboration With Research Communities, Telco operators
    - 3.9.1.1 Passive Smart Surface
- 3.10 Mitsubishi Electric
  - 3.10.1 Research On Terahertz (Thz) Communication
  - 3.10.2 Collaboration With Research Communities
    - 3.10.2.1 6G Flagship
- 3.11 Fujitsu
  - 3.11.1 Collaboration With Research Communities, Telco operators
    - 3.11.1.1 NTT DOCOMO
    - 3.11.1.2 Nippon Telegraph and Telephone Corporation
    - 3.11.1.3 Next G Alliance
  - 3.11.2 *Development Of Disaggregated Architecture*
- 3.12 ZTE
  - 3.12.1 Reconfigurable Intelligent metaSurface Solution
  - 3.12.2 R&D investment
  - 3.12.3 Collaboration with Telco operators
- 3.13 KT Corporation
  - 3.13.1 Collaboration With Research and Educational Communities
    - 3.13.1.1 New Media Communication Research Institute of Seoul National University (SNU)
    - 3.13.1.2 Reconfigurable Intelligent Surface (RIS)
- 3.14 Radisys
  - 3.14.1 Collaboration With Research Communities
    - 3.14.1.1 ATIS Next G Alliance

### 3.15 LG

3.15.1 Testing The Wireless Transmission And Reception Of 6G Terahertz (Thz)

3.15.2 Collaboration With Research and Educational Communities

3.15.2.1 Korea Advanced Institute of Science and Technology (KAIST)

3.15.2.2 Next G Alliance

3.15.2.3 Fraunhofer Heinrich Hertz Institute (HHI)

## 4. Telco Initiatives

4.1 AT&T

4.2 Bharti Airtel

4.3 BT

4.4 China Mobile

4.5 China Telecom

4.6 China Unicom

4.7 Cox Communications Inc

4.8 Deutsche Telekom AG

4.9 Etisalat

4.10 Reliance Jio

4.11 TIM S.p.A.

4.12 KT Corporation

4.13 NTT Group

4.14 Orange SA

4.15 Saudi Telecommunication Company

4.16 Singtel

4.17 SoftBank Corp

4.18 Swisscom AG

4.19 Telefonica SA

4.20 Telenor ASA

4.21 Telstra Corp Ltd

4.22 Turk Telekom

4.23 Verizon

4.24 Vodafone Group Plc

4.25 T-Mobile

## 5 Market Dynamics

5.1 Drivers

- 5.1.1 Technology Advancements
- 5.1.2 Growing demand for connected devices
- 5.1.3 Increased demand for high-speed/low-latency communication
- 5.1.4 Government initiatives
- 5.2 Restraints
  - 5.2.1 High infrastructure costs
  - 5.2.2 Regulatory challenges
  - 5.2.3 Network security
  - 5.2.4 Economic uncertainty
- 5.3 Opportunities
  - 5.3.1 New revenue streams
  - 5.3.2 Enhanced user experiences
  - 5.3.3 Advancements in multiple industries
  - 5.3.4 Innovation and collaboration
- 5.4 Regional Analysis
  - 5.4.1 Europe
    - 5.4.1.1 Hexa-X
    - 5.4.1.2 Germany (6G-RIC)
  - 5.4.2 North America
    - 5.4.2.1 Next G Alliance
    - 5.4.2.2 FCC 6G frequency for spectrum testing
  - 5.4.3 Asia Pacific
    - 5.4.3.1 China (China Mobile & One Telecom Operator Testing Terahertz Waves)
    - 5.4.3.2 South Korea (South Korea government announced the K-Network)
  - 5.4.4 Latin America
    - 5.4.4.1 Brazil (Ericsson's RD&I center in Indaiatuba)
    - 5.4.4.2 Brazil (Consortio Brasil 6G group)
  - 5.4.5 Middle East & Africa
    - 5.4.5.1 Saudi Arab (Ericsson and KAUST R&D partnership)
- 5.5 6G Applications
  - 5.5.1 Autonomous Cars
  - 5.5.2 Remote Medical Care
  - 5.5.3 Smart Cities
  - 5.5.4 Augmented Reality (AR) and Virtual Reality (VR)

- 5.5.5 Industrial Automation
- 5.5.6 Smart Agriculture
- 5.5.7 Space Exploration
- 5.5.8 Edge Computing
- 5.5.9 Enhanced network security

## **6 Global Market Overview**

- 5.1 Breakdown by Revenue Stream
- 5.2 Breakdown by Network Function
- 5.3 Breakdown by Application
- 5.4 Breakdown by Region
